

PRACTICE PROFILE AND CAPABILITY STATEMENT

PRACTICE STATEMENT

Jardine Architects is a group of dynamic and innovative consulting architects providing services in the disciplines of Architecture, Master Planning and Interior Design. These services are provided for a wide range of private, Commercial and Institutional Clients who share the company's dedication to excellence

Jardine Architects aims to be seen as a leader in Architecture by creating unique built solutions, which respond to the Client's needs and adds value to the project.

The firm purposely develops and maintains links within the business and private communities so as to develop future project opportunities. We understand that the reputation of the firm is based upon the success of current projects and is directly related to providing the best professional services possible.

Our Approach to each project is professional and disciplined while striving to build and maintain long term Client relationships.

PRACTICE STRUCTURE

The practice has 32 years of experience in Architectural Design while working within the Construction Industry. The Practice's reputation for capability and credibility has steadily grown over this time and has been founded on quality and standard of service to our clients.

All projects undertaken by the practice are managed by a Director of the Practice. This ensures that a high quality of service is maintained and that our Client's interest is foremost. Regular reviews of projects are undertaken during the design process.

We are constantly reviewing our services with an aim to reflect new ideas and technologies. Jardine Architects is committed to implementing ecologically sustainable projects and professional development. The practice is represented on a variety of professional associations, and personnel regularly attend industry seminars.

METHODOLOGY

Every project in the office is headed by an Architect / Director who is directly responsible to the Client and manages the project through all its stages.
