## **INTRODUCTION**

B. G. Pullar Constructions Pty. Ltd. was established in Brisbane in 1993 and began trading in Queensland. Previous to this the business was operated as B. G. Pullar Constructions, a family partnership which commenced in 1991. The company has in a short time accomplished a reputation for building middle to high end price range, custom quality homes and light commercial buildings on mainly a design and construct basis and fixed price contract.

This background is evident in the company's innovative approach to design, workmanship and level of attention to detail that produces clearly superior products.

The majority of projects undertaken have been middle to high end range new houses, small townhouse projects, renovations and Child Care Centres with clients ranging from householders to business people and developers.

The company will continue to remain as a small to medium size operation so as to guarantee personal service with clients. Future work projects are sought through referral contact and satisfied clientele.

## **HUMAN RESOURCES**

The success of B. G. Pullar Constructions Pty. Ltd. can be attributed to the highly experienced and multi-disciplined specialist contractors, management and staff.

Our team includes - Architects , Engineers, Surveyors, Estimators, and Construction Personnel, most of which are external consultants engaged to participate in projects to ensure our clients are provided with the ultimate alternative in affordable and distinctive housing.

An enlightened attitude to both employees and specialist contractors has been generated over the short business life of the company. The company's philosophy of communicating effectively and directly with the personnel at the workplace ensures the success of projects and satisfaction to clients.
